Re: Reactivation of Closed Permit, Feller Holding Company, TJKSJ Placer, S/053/046, Washington County, Utah

Dear Mr. Feller:

On March 2, 2001, the Division received your annual report for the TJKSJ Placer permit, DOGM file number S/053/046. Your report indicates that 15 tons of material was removed from this site during the year of 2000.

On January 21, 1999 this permit (and case file) was closed by both the BLM and DOGM. If you are presently removing material from this site you are in violation of federal and state mining laws. You will need to do one of two things: 1) you must either file a new notice with both the BLM and DOGM and submit the permit fee with the new notice; or 2) request, in writing, that the old permit which was previously closed be reactivated. If you choose to reactivate the previously closed file, permit fees for 1999 and 2000 are now due and payable.

Continued activity in this area without a valid permit is a violation of the Utah Mined Reclamation Act and will result in appropriate enforcement action(s).

Please reply within 30 days of your receipt of this letter stating your intentions concerning this project. If you have any question please contact me at 538-5286 or Doug Jensen at 538-5382.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
